IMPORTANT

Preparation for your test

Preparation Details

Please finish drinking 2 pints of water (1 litre) an hour before your appointment time and do not empty your bladder. It may be necessary, with your consent, to perform a transvaginal scan to obtain clearer images, an explanation of this can be found in the patient information booklet accompanying this letter. If you do not have a full bladder it may not be possible to carry out this scan.

Providing Services on behalf of the NHS
